Predictive Coding Technology Employment

100 Responders and 234 Selections

- Active Learning: 86
- Latent Semantic Analysis (LSA): 30
- Relevance Feedback: 28
- Support Vector Machine: 24
- Decision Tree: 12
- Probabilistic Latent Semantic Analysis (PLSA): 12
- k-Nearest Neighbor Classifier (k-NN): 11
- Logistic Regression: 8
- Neural Network: 7
- Naive Bayesian Classifier: 6
- Random Forests: 1
- Other: 9

Other categories include:

- Random Forests: 1
- Naive Bayesian Classifier: 6
- Neural Network: 7
- Logistic Regression: 8
- k-Nearest Neighbor Classifier (k-NN): 11
- Probabilistic Latent Semantic Analysis (PLSA): 12
- Decision Tree: 12
- Support Vector Machine: 24
- Relevance Feedback: 28
- Latent Semantic Analysis (LSA): 30
- Active Learning: 86
