ComplexDiscovery is an online publication that highlights data and legal discovery insight and intelligence ranging from original research to aggregated news for use by business, information technology, and legal professionals. The highly targeted publication seeks to increase the collective understanding of readers regarding data and legal discovery information and issues and to provide an objective resource for considering trends, technologies, and services related to electronically stored information. Visit the complete site at ComplexDiscovery.com.

**Data Discovery* is the exploration of patterns and trends within unstructured data with the objective of uncovering insight and driving action. *Electronic Discovery* (Legal Discovery) is the process of identifying, preserving, collecting, processing, searching, reviewing, and producing electronically stored information that may be relevant to a civil, criminal, or regulatory matter.
